## PROFESSIONAL SUMMARY

---

Motivated and detail-oriented B.Tech graduate in Computer Science Engineering with a strong foundation in software development, object-oriented programming, and problem-solving. Proficient in Java programming language, with hands-on experience in building scalable applications and designing innovative solutions. Adept at leveraging data structures, algorithms, and distributed systems to address complex challenges. Passionate about delivering high-quality software in fast-paced, agile environments. Strong collaboration and communication skills with experience in full-stack development.

## EDUCATION

---

**Lovely Professional University**

*Bachelor of Technology - Computer Science & Engineering*

**Jun 2020 - Jun 2024**

*Punjab, India*

**St. Mary's Inter College**

*Higher Secondary - HS*

**Jun 2019 - Jun 2020**

*Gorakhpur, India*

## TECHNICAL SKILLS

---

**Languages:** Java, Kotlin, Data Structure, JavaScript, SQL

**Frameworks:** React, Node js, HTML, CSS

**Tools:** Vscode, Git, Github, Excel, Android Studio

**Power Skills:** Communication skills, Time Management, Adaptability, Decision making, Logical Thinking

## PROJECTS

---

**Weather Forecasting App** 📄 | Kotlin, Android SDK

**June 2024 - Nov 2024**

- Built a weather forecasting application using Kotlin, offering real-time weather updates.
- Utilized Jetpack Compose for UI design, ensuring an intuitive user experience.
- Integrated third-party APIs for accurate weather predictions and seamless functionality.

**Amazon e-Commerce Site** 📄 | React, Node.js, Stripe

**May 2023 - Dec 2023**

- Designed a scalable backend system with Node.js, enhancing performance by 15%.
- Developed responsive UI using React, improving the platform's usability by 20%.
- Integrated secure payment gateways (Stripe) and performed thorough API testing for reliability.

**Task Scheduler** 📄 | Java, XML, React

**Nov 2022 - Jan 2023**

- Developed a comprehensive task management application using Java reducing task completion by 50%.
- Implemented multithreaded operations for real-time updates and efficient task handling.
- Designed a user-friendly XML interface, increasing user productivity by 15%.

## ACHIEVEMENTS

---

- **Azuga - 5G Edge Programming Challenge:** **Ranked 16th** on the leaderboard and received cool goodies.
- **Hero Campus Challenge Season 8 Hackathon:** Participated in the hackathon and gained valuable experience.
- **Azuga - Code Quality Challenge:** **Achieved 3rd place** on the leaderboard and received cool goodies .

## CERTIFICATIONS

---

- Soft Skills Training Program - Transformative Technology - July 2024
- Java Full Stack Development - Cipher School - Jan 2023
- Data Structure and Algorithm Self Paced - GeeksforGeeks - June 2022
